Subject: October CAG mtg prep call
[Passaic CAG Presentation Oct 2011-HumH Risk-DRAFT.pdf](#)
[Ecological risk assessment -Passaic River CAG presentation-no pictures.pdf](#)

Attached is the eco presentation with a completed slide 16. I have left the human health presentation as it was sent to you yesterday below, so that you can just delete yesterday's message if you wish to.

Attached are DRAFT versions of the human health and ecological risk assessment presentations. Marian Olsen (human health) and Chuck Nace (eco) will be on the 10/3 call to go over them and take any comments. Note that the eco presentation slide 16 has a place-holder that we may be able to fill in by Monday before the call. But I wanted you to have a little time to review these before the call, so decided not to hold them up for that one line.

Have you received anything from Ella yet on the DMM Options?

Subject: Re: November CAG meeting

Thanks Alice,

For October we have the following topic listed:

Understanding human health and ecological risk assessments and how they are used in decision making

The following additional topics for October were also raised at the September meeting:

- Update on air permitting for the phase 1 removal project
- Presentation on USACE restoration opportunities
- DEC update on communication regarding contaminated sediments during recent flooding.
- DEC update on the planned crab and fish consumption advisory blitz.

Also, Ella has asked for 45 minutes to present a paper they have developed:

Dredged Material Management (DMM) Options: Assessing Human Health and Ecological Benefits

This will be a pretty packed meeting and we should have a pre-call to walk through the agenda and needs for each presentation, How does October 3 look for folks?

thanks
Doug
